INTRODUCING

FuelStationERP

Fuel Station Management System — Feature Overview

FuelStationERP is TondeSoft Ltd's flagship Fuel Station Management System — a single, integrated platform that brings together fuel operations, inventory, sales, financials and regulatory reporting. Built for single-station operators as well as multi-branch fuel retail networks, FuelStationERP replaces fragmented paper- and spreadsheet-based processes with one secure, real-time system that every part of the business can rely on. The sections below outline the core modules and features available within the platform.

Operations

The everyday front-line workflow for running a fuel station.

• **Dashboard**	A real-time overview of sales, fuel levels, shift status and key alerts across the station.
• **Sales & POS**	A fast point-of-sale interface for recording fuel and shop sales at the pump and counter.
• **Sales Orders**	Create and track bulk or scheduled fuel sales orders for corporate and walk-in customers.
• **Quotations**	Generate price quotations for bulk fuel or product orders before converting them to sales.
• **Shift Reports**	Automated end-of-shift reconciliation reports covering sales, cash and attendant performance.

Fuel Assets & Inventory

Complete visibility and control over tanks, pumps, stock and fuel movement.

• **Tanks**	Monitor fuel tank levels, capacity and status in real time to prevent stockouts and overfilling.
• **Pumps**	Manage pump configuration, nozzle assignment and live pump status across the station.
• **Inventory**	Track stock levels of fuel and non-fuel products across the station and connected stores.
• **Products & Prices**	Maintain a central catalogue of fuel grades and shop products with up-to-date pricing.
• **Tank Dip Reconciliation**	Compare manual dip readings against system stock to detect variances, leaks or losses.
• **Compliance**	Track regulatory compliance requirements and certifications for safe, lawful station operation.

• Smart Reorder	Automated reorder alerts and suggestions based on stock levels and consumption trends.
• Purchase Orders	Create and track purchase orders for fuel and product replenishment from suppliers.
• Delivery Truck Log	Record and track incoming fuel deliveries, including truck details and delivered volumes.
• Price Intelligence	Monitor market and competitor pricing trends to inform pump pricing decisions.
• Fuel Quality & Water Test	Log fuel quality checks and water contamination tests to safeguard product integrity.
• Fleet & Fuel Cards	Manage corporate fleet accounts and prepaid/credit fuel card programmes.
• Fuel Coupons	Issue, track and redeem fuel coupons for promotions, corporate clients or gift schemes.

Financials & Accounting

A full accounting suite giving station owners complete financial control.

• Accounting	The central accounting workspace tying together all financial modules and transactions.
• Chart of Accounts	Structured setup of all financial accounts used across the station's books.
• Journal Entries	Record and manage manual and automated accounting entries.
• General Ledger	The central ledger consolidating all financial transactions for reporting and audit.
• Trial Balance	Instantly generate trial balances to verify the accuracy of the accounting books.
• Balance Sheet	Real-time balance sheet reporting reflecting the station's financial position.
• Profit & Loss	Automated profit and loss statements for any selected period.
• Cash Flow	Track cash inflows and outflows to support liquidity planning.
• Fixed Assets	Register and track station assets, including depreciation schedules.
• Bank Reconciliation	Match bank statements against internal records to keep accounts accurate.

Business Management

Tools for managing customers, costs and business relationships.

• Debtors / Credit	Manage customer credit accounts, outstanding balances and repayment tracking.
• Loyalty & Rewards	Run customer loyalty and rewards programmes to build repeat business.
• Expenses	Capture, categorize and approve operational expenses across the station.
• Suppliers	Maintain supplier records, terms and performance for fuel and product procurement.

Staff & HR

Manage the people who keep the station running.

• **Staff Members**	Maintain a central directory of staff records, roles and station assignments.
• **Attendance & Leave**	Track staff attendance, shifts and leave requests in one place.
• **Payroll**	Process staff salaries, deductions and payslips within the system.

Mart / Convenience Store

Extend the ERP to manage an on-site shop or convenience mart.

• **Mart POS**	A dedicated point-of-sale for the convenience store, separate from fuel sales.
• **Mart Inventory**	Track stock levels, restocking and shrinkage for shop/mart products.
• **Mart Reports**	Sales and performance reporting specific to the convenience store operation.

Reports & Analytics

Data-driven insight into performance across the business.

• **Executive Dashboard**	A high-level, management-focused view of overall business performance and KPIs.
• **Analytics Reports**	Detailed analytical reports on sales, inventory and financial performance.
• **Global Reports**	Consolidated reporting across all stations for multi-branch operators.
• **Branch Scorecard**	Compare performance across branches using standardized scorecards and metrics.
• **Break-Even & Profitability**	Analyze break-even points and profitability by station, product or period.
• **GRA / VAT Report**	Generate reports formatted for Ghana Revenue Authority VAT and tax submission.

Settings & Administration

Configure and safeguard the system.

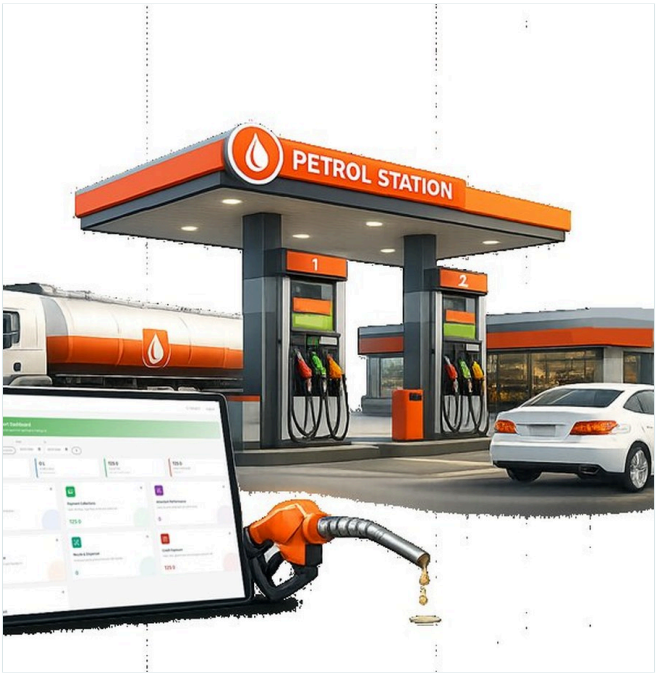

• **System Settings**	Configure system-wide preferences, defaults and operational parameters.
• **Station Management**	Manage details, configuration and setup for individual stations in the network.
• **Audit Log**	A complete, tamper-evident log of user actions across the system for accountability and compliance.

FuelStationERP is continually enhanced by TondeSoft Ltd to meet evolving operational, financial and regulatory needs — including alignment with Ghana Revenue Authority (GRA) VAT reporting. To schedule a demonstration or discuss a deployment tailored to your station or network, reach us on 0539228215 (call) or 0275498774 (WhatsApp), via facebook.com/tondesoft, or visit tondesoft.com.
