SusuERP

A Complete Susu & Group Savings Management System by TondeSoft Ltd

SusuERP is an all-in-one, cloud-ready management platform built for susu collectors, group savings schemes, and community microfinance operations. From group formation and contribution collection to beneficiary rotation, loans, welfare, and compliance, every part of the operation is brought together on a single, secure platform. The sections below outline each module available in the system and the value it brings to your institution.

Core

Dashboard	A real-time overview of group activity, contributions, and payouts, giving administrators instant visibility into how every susu group is performing.
Group Management	Creates and manages susu groups, including group rules, contribution schedules, and membership, keeping each group organised from formation onward.
Member Management	Maintains complete member profiles across groups, including personal details, contribution history, and group affiliations.
Contribution Collection	Records daily, weekly, or periodic member contributions, whether collected in person or digitally, keeping every group's savings accurate and up to date.
Beneficiary Rotation	Manages the rotating payout order for susu groups, ensuring each member receives their contribution payout fairly and on schedule.
Payment Management	Processes and tracks payouts and disbursements to members, keeping payment records accurate and auditable.

Operations

Attendance Management	Tracks member attendance at group meetings and collection points, supporting accountability and engagement monitoring.
Loan Management	Manages loans extended to members from group or institutional funds, from application through repayment tracking.
Savings Management	Handles individual and group savings products beyond standard susu contributions, supporting flexible savings arrangements.
Welfare Management	Coordinates welfare contributions and support for members in need, with tracking of requests and disbursements.
Fines & Penalties	Records and manages fines for missed contributions or meetings, applied consistently according to group rules.

Meeting Management	Schedules and documents group meetings, including agendas, minutes, and attendance, keeping group governance organised.
Tasks & Reminders	Sends automated reminders for contributions, meetings, and payouts, helping members and administrators stay on track.
Leadership & Elections	Manages group leadership roles and election processes, supporting transparent and democratic group governance.

Finance

Financial Accounting	A complete accounting module covering income, expenses, and financial statements, giving administrators a clear picture of overall financial health.
Mobile Money	Accepts and reconciles member contributions and payouts made through mobile money platforms, streamlining collections and disbursements.
Bank Integration	Connects group and institutional accounts with banking systems, enabling seamless transfers and reconciliation.
Insurance	Offers insurance products linked to member savings or loans, providing an added layer of financial protection for members.

Intelligence

Credit Scoring	Applies data-driven credit scoring to member contribution and repayment history, supporting fairer and faster loan decisions.
Group Health	Monitors the overall health of each susu group, such as contribution consistency and default rates, flagging groups that need attention.
Savings Goals	Allows members to set and track personal or group savings goals, encouraging disciplined saving behaviour.
Asset Register	Tracks physical or financial assets owned by groups or the institution, including valuation and condition.
Referral Rewards	Rewards members who refer new participants to the platform, supporting organic group and membership growth.
Member Portal	Gives members self-service access to view their contributions, loans, and payout schedule, improving transparency and trust.

Notifications	Delivers automated alerts for contributions, payouts, meetings, and overdue fines, keeping members and staff informed in real time.
Document Management	Securely stores group and member documents, agreements, and records, with controlled access for authorised users.
Reports	Generates detailed contribution, loan, and financial reports to support informed, data-driven decisions.
User & Security	Controls system access with role-based permissions, ensuring staff and group leaders only see and do what they are authorised to.
Multi-Branch	Manages multiple branches or collection centres from a single system, with centralised oversight and branch-level reporting.
Compliance Center	Tracks regulatory and compliance obligations, helping the institution stay audit-ready and aligned with requirements.
Advanced Features	Provides access to additional configuration and power-user tools for institutions with more complex operational needs.

Why SusuERP? Every module is designed to work together, so information entered once — a contribution, a payout, a loan repayment — flows seamlessly across the system. The result is fewer disputes, stronger member trust, and more time for administrators to focus on growing the scheme rather than reconciling paperwork.
